International Symposium on Pathomechanisms of Amyloid Diseases

Miami, Florida **December 18-20, 2019**

Scientific Topics

- Human amyloid imaging
- Animal models of amyloid diseases
- Drug design and development for amyloid diseases
- Amyloid enhancing viral infections
- Bacterial and functional amyloids
- Cellular toxicity
- Effects of cross-seeding, crowding, and cell membrane
- Mechanistic insights into pathology of amyloid diseases
- Theoretical, computational and experimental studies on toxic oligomers
- Instrumentation, technology and novel approaches for *in vitro* and *in vivo* studies of amyloid diseases
- Educational activities to Pre- and Post-doctoral fellows

Target Audience

Researchers in Academics and Industry

Graduate Students and Post-Docs

Physician Scientists

Early Registration : $350 (until October 31st 2019)

Late Registration : $450 (from November 1st 2019)

Abstract Submission deadline : October 31st 2019

Please email abstracts to Amyloid.diseases@gmail.com

Organizers

Varan Govind (University of Miami)
Ayyalusamy (Rams) Ramamoorthy (University of Michigan)
